the library and the number of those resorting to it for study or recreation have continued to show a constant in-crease, until the use of the collections is two or three times that of any of the average number of readers daily is almost double the numbers of those using the British Museum of London or the Bibliotheque Nationale of Paria".

The total number of books and pamphlets in the library and branches was 2,410,379 and the number of employees was 1,248 at the close of the year.

A great demand for information re-

A great demand for information re-

A great demand for information relating to the war has been met. The chief of the technology division at the central buildings says:

"There has been a lively interest in the printed material relating to the technological side of the European war. Investigators have been studying the opportunities afforded for new industries, notably in the coal tar and petroleum products. The toy makers, who are trying to supply the market hitherto dependent upon imports from Germany, have sent their agents to study processes for the manufacture of dolls. Information has been sought upon the details of the manufacture of mechanical toys. The industry of making Christmas tree females in the statement, is still less than that of France and also of Germany, providing the obligations of the Germany States are included. Of Great Britain's 8000,000,000, approximately \$2,500,000,000 has gone to her allies. Following is a table showing the approximate war debts of the leading beligerent nations in billions of dollars:

No. 4

A Square Deal for New York City and \$11,000,000 Less Taxes Yearly?

YOU and your fellow voters in each district can make your representatives stand up and be counted.

Most of the City's legislators are standing to the guns for their City. They de-

serve and should receive unanimous support. Ask the men who represent you whether they favor

"The \$11,000,000 Square Deal Program." Do they stand for the repeal of the iniquitous State Aid Law, which forces this City to give a yearly subsidy of \$1,300,000 to the up-State townships?

Do they stand for State support of the Public Service Commission in this district (costing the City \$600,000 a year), just as the State supports the up-State Do they stand for State support of our normal schools (costing the City \$1,000,-

000 a year), just as the State supports up-State normal schools? Do they stand for giving New York City a share of the State highways, which will eventually cost the City \$182,000,000 for bonds and interest and \$8,000,000 a year for maintenance?

Do they stand for stricter scrutiny of special appropriations for local up-State benefits which cost this City \$750,000 a year? Do they stand for a fairer distribution of indirect taxes, such as the automobile tax, the liquor tax and the stock transfer tax, so that our ordinary taxes may be

reduced \$5,500,000 a year? High Taxes, Big Rents and Unfair Tax Burdens Go Together

Ask your local legislators to work for you, and for your City.
